Notes & Details

This Regency 18" 16 gauge stainless steel one compartment commercial utility sink is a great economical choice for an array of establishments. It comes with a 3 1/2" long x 8" tall swivel gooseneck spout with a 2 GPM flow rate. The faucet attaches to the sink via its 8" centers and connects to the facility water lines with a set of 1/2" NPT inlets. The faucet body is made from chrome-plated brass, and its water flow is controlled by a pair of simple lever handles. The faucet boasts a maximum water temperature of 140 degrees Fahrenheit.

The one-compartment sink is constructed with sturdy, 16 gauge type 304 stainless steel, making it corrosion-resistant and durable. It also boasts a 13" deep bowl perfect for accommodating larger items such as mop buckets. This unit comes with a 1 1/2" IPS drain, a convenient 3 1/2" strainer basket, and an 8 3/4" tall backsplash to protect your walls. The unit's legs are constructed with galvanized steel with bullet feet with 1" of adjustability so you can install this sink to best fit your needs.

This sink includes an 18" x 18" detachable drainboard made with durable 18 gauge, type 304 stainless steel. This drainboard can be attached to the left or right side of your sink with 2 stainless steel fixed tubing braces that provide additional stability. The drainboard has turned up 2" hemmed edges along its sides and ends to keep your work environment safe. Plus, the sloped design directs water into the sink for proper drainage. This unit is ideal for a variety of janitorial and commercial kitchen applications.
