## Notes & Details

Outfit your facility with this reliable Regency 3-compartment commercial sink. This sink is constructed from high-quality 16-gauge type 304 stainless steel with a welded construction for long-lasting durability and corrosion resistance. It features a 15" drainboard on the right side to easily wash and dry dishes and utensils in one convenient location. The (3) 15" x 15" x 12" sink bowls allow for washing, rinsing, and sanitizing within the same unit. Plus, they are die-stamped to a minimum of 1/4" to ensure proper drainage. Each bowl includes a 3 1/2" basket strainer to catch food debris and prevent clogs. For easy cleaning, the compartments have rounded corners so you can rinse and wipe down the sink.

The included 9 3/4" tall backsplash has (2) 1 1/8" diameter holes punched on 8" centers, allowing you to add a faucet (sold separately). This sink includes a 2 1/2" raised rolled edge that is 2" tall on the front and both sides to contain splashes and overflow. It also comes equipped with 1 1/2" IPS drain connections. The 1 5/8" diameter stainless steel legs have stainless steel sockets, cross bracing, and adjustable bullet feet for added stability. Designed for medium-duty use, this sink is a great addition to any commercial kitchen.
