## Plan View

## Notes & Details

This Regency 50" long soiled / dirty undercounter dishtable is constructed of durable 16-gauge type 304 stainless steel that ensures a long service life and excellent corrosion resistance. It features an 8" backsplash with a 2" return to help protect your walls, and a 2" raised lip on the table to limit overflow and keep your floors dry. The table's 27 1/2" side shelf provides plenty of room to pile up your dirty dishes before rinsing them and sending them on to a dishwasher or three compartment sink for a thorough cleaning.

This undercounter dishtable has 1 5/8" diameter stainless steel legs with stainless steel sockets to provide superior stability. Its die stamped, 6" deep pre-rinse bowl directs water down into the drain assembly for efficient operation and easy use, while the included 3 1/2" basket strainer catches any larger particles that you don't want clogging up your pipes. Holes punched on 8" centers allow for easy installation of the pre-rinse faucet. Stainless steel adjustable bullet feet allow you to level your dishtable on uneven surfaces.
