Ensure safety and comfort for your guests!

Provide customers with optimal accessibility in your venue's restroom with restroom grab bars! Available in 12", 18", 24", 30", 36", 42" or 48" widths. These dependable restroom grab bars will help prevent slips, falls, or injuries in your restroom to put your guests at ease.

ADA Compatible

When installed correctly, these items meet the criteria established by the Americans with Disabilities Act (ADA), helping make your restaurant more accessible to people with disabilities.

DURABLE CONSTRUCTION

Comprised of high-quality 20 gauge type 304 stainless steel, these grab bars guarantee reliability and durability. In addition, this material is easy to maintain.

EASY GRIP

The 1 1/2" diameter ensures a comfortable and firm grip for your guests. Plus, the sleek satin finish hides unsightly fingerprints and makes for easy cleaning!

EASY TO INSTALL

When installed correctly, these bars remain securely fastened to the wall or divider to ensure maximum effectiveness.

250+ LB. CAPACITY

With proper installation, these grab bars can withstand 250+ lbs., so you can rest assured your guests have a sturdy and safe unit to hold. Please note that the wall and installation weight capacity may differ.

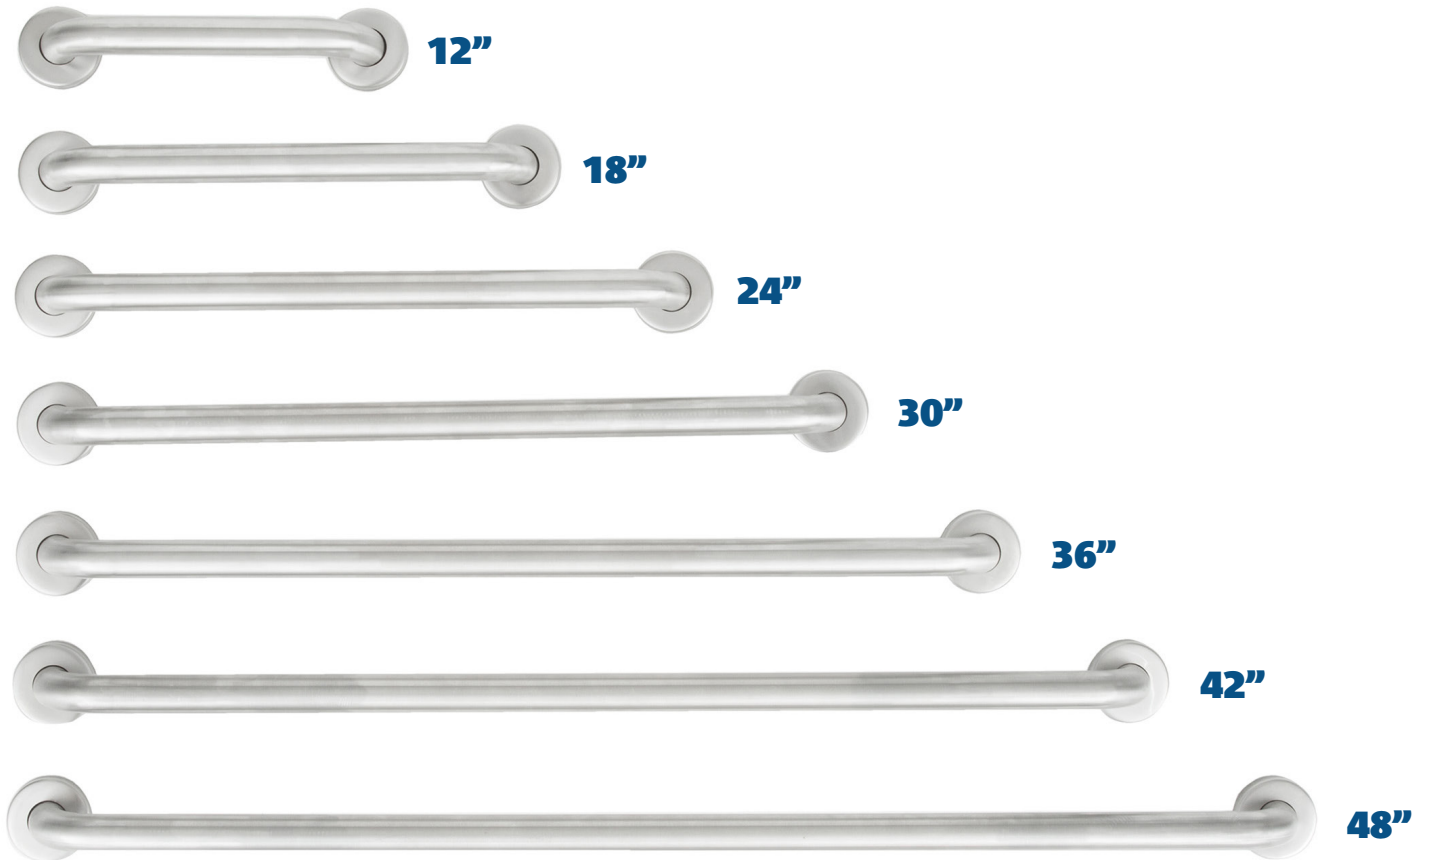

MOUNTING HARDWARE

Mounting hardware is conveniently included for proper installation! Please note additional hardware may be required.
