PATENTED PORTION CONTROL TECHNOLOGY

Precision

Our patented 6 Wing Silicon Wheel delivers exact portions every time, without crushing your product.

Cost-Effective

Save money by reducing waste.

Food Safe

Silicon is also an approved FDA material, versus plastic, which is not.

Efficient

Serve more people, faster.

A Cleaner Option

Works with an attached funnel that dispenses cereal straight into the bowl, instead of on the counter or onto the floor.

We use the highest quality materials available to craft products that are built to last. All of our products are designed for high traffic use.

COFFEE & TEAS

Keep your tea leaves and coffee beans fresh without sacrificing style.
The same technology that delivers exact portions also locks in freshness
so you can be confident that you are serving your best product.

CUSTOMIZE FOR A LOOK THAT IS
AS UNIQUE AS YOUR BUSINESS

EXACT PORTIONS SAVE MONEY!

Precise portioning dispenses efficiently, while smart design makes cleaning quick & easy. The SCOOP-IT and EZ-SERV® patented soft silicone paddle wheel reduces food damage while a sizable catch tray keeps the dispensing area clean.

Our portion control wheels gently dispense dry food using soft flexible wings that minimize food damage and serve exact portions.

Just a few examples of the kinds of toppings for yogurt and ice cream shops, coffee shops, tea shops, and spice shops:

SCOOP-IT

technology dispenses exact portions from 1 tsp. to 4.5 tsp. in one turn.

THE SCOOP-IT

dispenser ball nests inside of a silicone funnel with two grooves on opposite side producing exact measured scoops of food each turn.

OUR PATENTED PORTION WHEEL

design gently dispenses dry food using soft, flexible wings that minimize food damage and serve exact portions from 1 tbsp. to 1.5 oz.

THE SYSTEM

is designed to keep food fresh and is easy to clean.

GET TO KNOW YOUR DISPENSER

Changing your portion wheel is an easy 3-step process. Test each wheel with your dry foods to determine which works best for you!

Here are some easy guidelines to help you understand how the different wheels work:

1. The **EZP004** is great for dispensing **larger** items such as, medium grind cookies like **Oreos, cereals & granolas, trail mix, coffee beans** and most kinds of dry foods.

2. The **PRO6-SM** is perfect for **medium** items such as, **chopped nuts, mini chocolate chips, crushed M&Ms and Wonka Nerds...etc.**

3. If you're looking for precision, the **1 teaspoon Scoop-It portion wheel** delivers the most accurate measurement on the market. The patent-pending Scoop-It wheel is ideal for **smaller** items such as, **sprinkles, crushed peanuts and almonds, coffee, sugar and spices.**
