### CONVENIENT AND EFFICIENT CANDYMAKER

The ElectroStove-20 Candy Stove is designed to streamline the candymaking process. This product just requires two steps to operate—plug it in and set the variable heat control and it's ready to go.

The ElectroStove-20 is offered in two models (#0103 & #0108 model). Ideal for facilities limited to electric cookers and in production spaces where hoods are not allowed.

### KEY FEATURES

- 1 Unique coiled heating system shaped to match the contour of the kettle
- 2 Focused heating design to move 90% of the heat energy to the kettle
- 3 No need for a hood/special ventilation for most confectionery applications
- 4 Simple power and heat ring controls
- 5 Safety switch disengages heat when kettle is not present

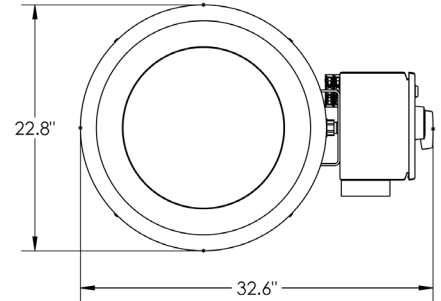

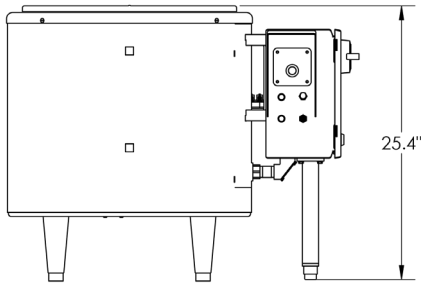

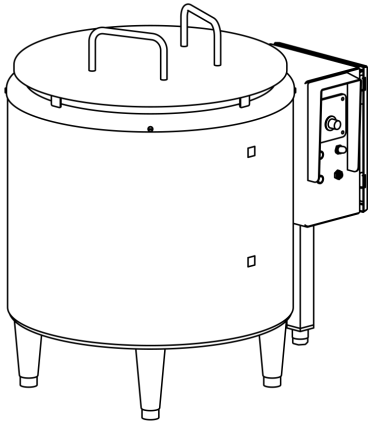

### OPTIONAL LEGACY MODELS & ACCESSORIES

- Legacy Models 0100 & 0101
  - Higher wattage models for enhanced performance
  - For replacing existing models and if necessary to adhere to the same Standard Operating Procedures (SOP)
- Copper and Stainless Steel 20" Kettle
- Portable Agitator
- Digital Thermometer
