Type	Food Tables

Notes & Details

Chill, protect, and mobilize your cold products with this complete ServIt CFT2KA stainless steel 2 pan ice-cooled food table, angled sneeze guard, and caster kit. The food table has a spacious ice well that allows you to place (2) 12" x 20" food pans, or multiple food pans of various sizes. The ice pan slopes down to a 1" IPS drain to facilitate smooth, hassle-free drainage of melted ice. The pan features fiberglass insulation to guarantee maximum temperature retention and product longevity. An 8" x 29" white thermoplastic cutting board is included with this table, ensuring you will have a convenient place for preparing food! The top and bowl of this unit are constructed with 20-gauge 304 stainless steel, which ensures long-term durability in commercial environments while remaining easy to clean. This ice-cooled cold food table also features a 20-gauge undershelf with galvanized steel sockets to provide additional, easy-to-access storage for cooking equipment and supplies.

The angled sneeze guard is a perfect companion for 2-pan food tables. Sneeze guards like this one are designed to enhance safety when serving food, as the acrylic shield design creates a barrier between your food and the people viewing and serving it. This reduces the chance for foodborne illness to spread and keeps your employees and customers healthy! It features a 1-sided angled design that's perfect for serving food to be given to customers by employees. It is not intended for self-serve applications. Mounting hardware is included. In addition, this kit comes with (4) polyurethane casters with brakes. This helps turn the table into a mobile station. The 300 lb. weight capacity enables mobility of the table, even when filled with product. It also raises the equipment by 6", which can help make the work area more comfortable and ergonomic.

Kit Includes:

- (4) Regency 5" polyurethane work table and equipment stand casters with brake
- ServIt CFT2 stainless steel 2 pan ice-cooled cold food table with undershelf
- ServIt 423ST2ASG angled sneeze guard for 2 pan steam tables
