Notes & Details

Keep all of your menu items piping hot and readily available with the ServIt four pan open well electric steam table with a partially-enclosed base! This powerful holding unit can hold four full size food pans or other fractional pan combinations (sold separately) full of pasta, meat, or side dishes in each 750W well. The body of this unit is constructed of durable 22-gauge type 430 stainless steel and heavy-duty hardware. The top and wells are made of 20-gauge type 304 stainless steel, while the cutting board support shelves are made of 16-gauge type 430 stainless steel. Plus, it stands on four sturdy legs to provide excellent stability.

Use the partially-enclosed base to securely store extra serving utensils, food pans, or lids to keep all the tools you need close at hand. The 1/2" thick cutting board is 8" deep, and it gives you an extra workspace for changing out food pans or filling plates. For optimal heating versatility, each individual well is independently controlled by an infinite control knob. Although intended for dry use, this steam table can be used wet with a compatible spillage pan (sold separately). A 208/240V electrical connection is required for the 7 11/16' power cord.
