Number of Pans	5 Pans
Number of Wells	5
Plug Type	NEMA 6-30P
Power Type	Electric
Style	Floor Model Heated
Top Material	Stainless Steel
Type	Stationary
Usage	Indoor
Well Type	Open / Dry Well

Notes & Details

Keep all of your menu items piping hot and readily available with the ServIt EST-5WE five pan open well electric steam table with undershelf! This powerful holding unit can hold five full size food pans full of pasta, meat, or side dishes in each 750W well. The body of this unit is constructed of durable 22-gauge type 430 stainless steel and heavy-duty hardware. The top and wells are made of 20-gauge type 304 stainless steel, while the cutting board support shelves are made of 16-gauge type 430 stainless steel.

Use the undershelf to store extra serving utensils, food pans, or lids to keep all of the tools you need close at hand. For extra convenience, the polyethylene 8" deep by 1/2" thick cutting board gives you a little extra work space for changing out food pans or filling plates. For optimum heating versatility, each individual well is independently controlled by an infinite control knob. Although intended for dry use, this steam table can be used wet with a compatible spillage pan (sold separately). A 208/240V electrical connection is required for the 7'7" power cord.
