- Wall Mount
- Handheld
- Tool Storage

Disclaimer

* Tank capacity refers to actual tank volume, and does not reflect capacity available during operation.

** "Peak Horsepower" (PHP) is a term used in the wet-dry vacuum industry for consumer comparison purposes. It does not denote the operational horsepower of a wet-dry vacuum but rather the horsepower output of a motor, including the motor's inertial contribution, achieved in laboratory testing. In actual use, Shop-Vac motors do not operate at the peak horsepower shown.
