

SOOTMASTER®

Professional Grade Furnace Vacuums

- ◆ Durable Steel Motor Heads
- ◆ Cold Rolled Reinforced Steel Tanks
- ◆ Spring Steel Head Clamps

Sootmaster® is the most durable and recognized line of furnace vacuums on the market today. The filter power systems are completely foolproof. Includes removable cloth filter and totally-enclosed disposable filter bags designed to recover more dirt than any other vacuum cleaner in their size class.

Vacuum efficiency is maintained at a maximum level from the time the filter bag is installed to when its full. Sootmaster® brand stands up to even the most demanding of soot removal tasks.
