- Permanently attached 1/4" safety chain fastens easily to fork truck
- 1/2" gap allows proper alignment of pallets built with product overhang

- Retracting leg option available for easy storage of the pallet adapter when using a walkie rider

COLLAPSIBLE PALLET PICKING ADAPTER *FOR WALKIE-RIDERS ONLY*

Increase warehouse efficiency and save valuable floor space by using the same pallet moving equipment for both CooLift and conventional pallets.

- Rugged, heavy-duty steel construction
- Decks fold up when not in use for handling standard stringer pallets
- Made for use with any size CooLift pallet
- Permanent installation eliminates need for warehouse space to store the adapter
- Averages 75% less time to change between CooLift pallet and conventional pallet modes (compared to removable pallet adapter models)

Bulk head design does not obstruct driver visibility or allow product to fall through

Dampering feature controls deck lowering

Non-binding link system provides smooth movement between deck positions - only 15 lbs. of force needed to lift each deck

Platform is offset vertically by 1-1/2" to allow each pallet to be set down individually

*Note: Load the CooLift pallet beginning at the bulkhead and cube outward to avoid tipping.
