

TUCKER

SAFETY PRODUCTS INC.

Ultimate Safety.... Approved for Foodservice

Maximum Safety

The ultimate in wearer protection from multiple heat sources, wet and dry.

Maximum Sanitation

All of our products are designed to inhibit the growth of bacteria. The QuickKlean™ VaporGuard® barrier does not allow anything to stick to it, which prevents soil build up and reduces the risk of cross contamination. Every QuickKlean™ product is quick and easy to clean.

Maximum Service

We design industry-leading products that can be trusted and that offer effective personal protection against burns or cuts throughout foodservice operations. We offer a one-year warranty against manufacturer's defects. If our customers are not 100% satisfied, we will work with them until they are.

Maximum Savings

Our innovative, high-grade materials protect wearers better for a longer period of time. The gloves last 20 times longer than traditional cotton quilted oven products.

QuickKlean™ Poly-Cotton Three-Finger Plus Gloves w/ Kevlar Palm

ITEM #:

57782

SIZE:

Medium

(additional sizes available upon request)

LENGTH:

18"

COLOR:

DESCRIPTION:

QuickKlean™ Three-Finger Plus Gloves

PACK SIZE:

1 pair

SPECIFICATION:

QuickKlean™ Poly-Cotton Three-Finger Plus Style Oven Glove: Tucker Safety Products BurnGuard® Item #57782. Material Palm: Kevlar (color yellow); Material Sleeve: Poly-Cotton (color blue). Standard size - Medium (additional sizes available upon request). Standard length: 18". Exposed exterior of outer shell fabric permanently bonded with flame resistant, effective liquid and vapor barrier, that will not lose its protective qualities if exposed to 500°F (260°C) for 24 continuous hours. Interior Liner to be SteamGuard® bonded RipStop™ Nylon. Insulation: 100% cotton terry that has been scoured, tumbled dry and heat set to eliminate 97% of shrinkage with the palm area designed to handle 650°F (343°C)*. Must be certified by NSF and meet NSF protocol # 96/011/480/2480 testing requirements for Class II oven mitts (thermal protection, open flame, an effective liquid/vapor barrier, durability, and cleanability).

* Insulation threshold levels as determined by NSF P149 & EN407 testing standards, which will prove a "not less than 15 seconds to discomfort".
