

Ultimate Safety.... Approved for Foodservice

Maximum Safety

The ultimate in user protection from multiple heat sources, wet and dry.

Maximum Sanitation

All of our products are designed to inhibit the growth of bacteria. The QuickClean™ VaporGuard® barrier does not allow anything to stick to it, which prevents soil build up and reduces the risk of cross contamination. Every QuickClean™ product is quick and easy to clean.

Maximum Service

We design industry-leading products that can be trusted and that offer effective personal protection against burns or cuts throughout foodservice operations. We offer a one-year warranty against manufacturer's defects. If our customers are not 100% satisfied, we will work with them until they are.

Maximum Savings

Our innovative, high-grade materials protect users better for a longer period of time. The pads last 10 times longer than traditional cotton quilted oven products.

TUCKER

SAFETY PRODUCTS INC.

1 each

SPECIFICATION:

QuickClean™ Hot Pad (with or without elastic strap): Tucker Safety Products BurnGuard® Item #_____. Size: 8" x 8".

QuickClean™ Bakers Hot Pad: Tucker Safety Products BurnGuard® Item #_____. Size: 8" x 10".

Material: Poly-Cotton (color blue). Exposed exterior of outer shell fabric permanently bonded with flame resistant, effective liquid and vapor barrier, that will not lose its protective qualities if exposed to 500°F (260°C) for 24 continuous hours. Insulation: 100% cotton terry that has been scoured, tumbled dry and heat set to eliminate 97% of shrinkage; designed to handle 450°F (232°C). * Must be certified by NSF and meet NSF protocol # 96/011/480/2480 testing requirements for thermal protection, an effective liquid/vapor barrier, durability, and cleanability.

** Insulation threshold levels as determined by NSF P149 & EN407 testing standards, which will prove a "not less than 15 seconds to discomfort".*

Part #	Catalog Description	UPC	UOM	Shipping Wt. (oz)	Dimen. (LWH) (in)
