

Urinal Auger

General Pipe Cleaners Teletube® Urinal Auger gets through urinals where other snakes can't. The specially designed spring has the toughness and flexibility negotiate tight urinal bends. The Telescoping Teletube Urinal Auger features a 48" spring for clearing stoppages beyond the urinal.

No need to pull the urinal off the wall, because the Teletube has an extra two feet telescoped inside the guide tube until you need it. After you've worked the first two feet into the line, you can go two feet farther simply by pressing a button and pulling back the crank handle.

The outer steel tube is a big 1-1/8" in diameter. The aluminum hexagonal guide tube is tougher than the steel rod used in our closet augers. Weighing less than 2 lbs., the compact, durable Teletube Urinal Auger includes a rust resistant steel tube, vinyl grip handle with "Grip Clip" for securing the cable, and a rubber bumper to protect the urinal bowl.

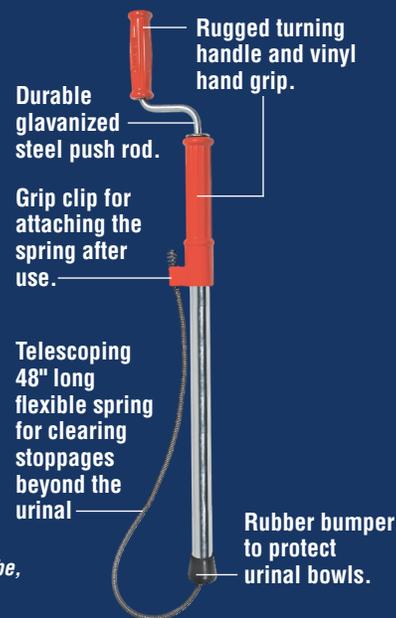

TU4

Catalog Number	Size	Weight Pounds
TU4	4 ft.	1-3/4
	1/3/4	(.8kg)
