Choosing the Right Equipment

1st Step:

Application/Removal

- Dry material collection
- Wet pick-up collection
- Confined spaces
- Compressed air availability
- Electric availability
- Vacuum blast recovery

2nd Step:

Substrate

- Hazardous materials
- Non-hazardous materials
- Water and slurry
- Dense material, grit

3rd Step:

Tools and Vacuums

- 3 Gallon Backpack Air or Electric HEPA
- 15 Gallon Floor Air or Electric HEPA
- Multi Tool Component Vacuum

HEPA Vacuums

Part - VA03ABK

3 Gallon HEPA Air Backpack

Novatek offers a range of **Pneumatic** and **Electric HEPA Vacuums**, specifically designed to work with our VSE product line. Choose between backpack, floor, or bulk collection units. Engineered for the recovery of lead, asbestos, mold, and other hazardous or non-hazardous materials.

Applications

- Use in difficult to access areas
- Perfect for attaching to scaffolding or boom trucks
- Haz Mat removal and recovery

Features & Benefits

- Your choice of powerful pneumatic or electric models
- Ultimate portability
- Perfectly matched to our VSE power tools
- 5 gallon steel recovery tank
- 4 stage filtration assures long HEPA life
- Can be converted from backpack to floor vac in seconds
- Individually tested and certified HEPA filters
- Air filter/dryer standard (pneumatic model only)
- Includes 6' x 1.5" of crush proof vacuum hose
- Integrated live air inlet with shutoff for connecting power tools

Part -VA03EBK

3 Gallon HEPA Electric Backpack

Air Backpack model with RotoPeen tool removing rust from a steel structure.

Model	Part No.	CFM Output Flow	Static Lift Inches of Water	Air Consumption	Tank	Maximum Hose Length
3 Gallon Air Backpack Vacuum	VA03ABK	170	160"	50 cfm @ 90 PSI 1420 lpm @ 6.2 bar	5 Gal 3 Gal Bag	75 ft. x 1.5"
3 Gallon Electric Backpack Vacuum	VA03EBK	110	110"	120 Volts, 60 Hz 11 Amps	5 Gal 3 Gal Bag	25 ft. x 1.5"

Applications

- High capacity cleanup
- Liquid pickup with optional wet/dry adapter
- Haz Mat removal and recovery
- Perfectly matched for our VSE power tool systems

Features & Benefits

- Your choice of powerful pneumatic or electric models
- 20 gallon rolled steel recovery tank
- 4 stage filtration assures long HEPA life
- Individually tested and certified HEPA filters
- Front swivel casters, large rear wheels for easy transport
- Air filter/dryer standard (pneumatic model only)
- 25' heavy duty power cord (electric models only)
- Includes 10' x 1.5" of crush proof vacuum hose
- Optional wet/dry adapter

Part - VA15AHFL 15 Gallon Air Floor Vacuum

Electric model with Roto Peen tool removing coating on concrete.

Part - VA15EHFL 15 Gallon Electric Floor Vacuum

Model	Part No.	CFM Output Flow	Static Lift Inches of Water	Power Consumption	Tank	Maximum Hose Length
15 Gallon Air Floor Vacuum	VA15AHFL	170	160"	50 cfm @ 90 PSI 1420 Imp @ 6.2 bar	20 Gal 15 Gal Bag	75 ft. x 1.5"
15 Gallon Electric Floor Vacuum	VA15EHFL	110	110"	120 Volts, 60 Hz 125 Amps	20 Gal 15 Gal Bag	25 ft. x 1.5"
