

**4-Wheel
Aluminum**

**4-Wheel 24" Extended Forks
Steel**

- 4-Wheel design improves control, maneuverability, and safety.
- Fenders provide additional protection and stability for your load.
- Steel frame for heavy duty, rigorous applications.
- Aluminum frame is lightweight for easy handling, and spark resistant.
- Rubber grip twin handles improve operator control.
- Foot operated trip spring allows forks to fold down or up.
- Fold forks up for compact storage or against the wall on a delivery truck.
- Fold forks down to easily push under your pallet or load.
- Once forks are under desired load, lift truck to lock forks in place, and break-back load for transport.
- Deep frame provides expanded 6" frame height, and 19" protective skid rails.
- 24" extended fork option used for larger loads & pallets.
- Heavy duty construction with solid welds for superior durability.
- Ships fully assembled, ready to use.
- Made in the U.S.A.

4-Wheel Deep Frame Pallet Hand Trucks

Model #	Material	Fork Size L x W	Wheels	Fork Distance	Dimensions W x D x H	Capacity (lbs.)	Weight (lbs.)
