

Ventech™

Condensation Hoods

No Hood? No Problem.

Maximize space and reduce costs.

It costs approximately \$2,000 per linear foot to install a traditional kitchen hood, and even more additional costs to run it daily. Ventech™ and Ventech™ PLUS Type 1 hoods with condensation technology put money back in your pocket by eliminating the need for expensive oven hoods and costly hood installations.

With no traditional hood restrictions, operators are able to place combi ovens with Ventech anywhere in the kitchen —maximizing floor space while improving efficiency and workflow.

"The ventless hood captures any smells that could be overpowering for our customers and helps us guarantee an atmosphere that reflects how clean and fresh our food is."

Travis Moe | Director of Operations | Crisp & Green

ALTO-SHAAM®

Take it out from under the hood.

Designed to maximize space and savings for foodservice operations that require cooking with convection heat, steam or a combination of both, Ventech™ and Ventech™ PLUS Type 1 hoods are available on a variety of Combitherm® ovens to meet the needs of your foodservice operation.

For more demanding locations, Ventech PLUS features a special HEPA filter along with Ventech condensation technology to capture smoke-related vapor and steam generated in the cooking process.

CTP6-10 [Electric only]

PRODUCT CAPACITY	PAN CAPACITY	DIMENSIONS (H x W x D)
72 lb [33 kg]	Seven (7) full-size or GN 1/1 pans Seven (7) half-size sheet pans	34-1/2" x 35-11/16" x 41-7/16" [876 mm x 906 mm x 1053 mm]

CTP10-10 [Electric only]
