DESCRIPTION

The Viper PRO was created to minimize cross contamination and laceration issues in food, chemical and other service and manufacturing environments. It's a safe, lightweight, ergonomically designed and economical tool that maximizes safety and minimize losses associated with such things as foodborne illness, product batch contamination, product damage and end user injuries.

The Viper Pro has three cutting surfaces that are used to open multiple substrates such as knotted bags, potato/onion/coffee bags, Cryovac, cellophane and foil sealed products. The tool offers a way to reduce the need for scissors and other knives in production and preparation areas.
