REGULAR ERECTA SHELF® SHELVING ACCESSORIES

1" (25mm) Ledge

- **1" (25mm) Shelf Ledges:** To prevent items from protruding or falling off shelves, ledges can be installed on the shelf edges.

In many cases a one-inch (25mm) ledge will serve the purpose, while allowing access to the shelf from all sides. When a higher ledge is needed, the four-inch (100mm) size can be used on the back or front of the shelf.

For enclosure of the entire back of a shelving unit, rods and tabs (below) can be attached.

Dimenions:

Spacer	9988Z

- **Corner Brace:** When regular Erecta Shelf® units are to be joined at right angles, corner braces link shelf ends of one unit to shelf sides of the other, eliminating one upright and leaving the shelving corner open and fully usable. Two required per shelf.
Model No. 9999Z

- **Upright Clamp:** Where regular Erecta Shelf® units are to be joined end-to-end, the upright clamp holds the adjacent uprights securely so that each unit buttresses the other.
Model No. 9971Z

- **Foot Plate:** Replaces the leveling bolt. Used when units are to be bolted to the floor or, without bolts, when a broader foot is desired.
Model No. 9993Z
