Notes & Details

This Waterloo 18" double-jointed swing spout is a perfect replacement for the one that came standard on select faucets! The spout is a vital part of your faucet, providing the reach and flexibility to deliver water exactly where it's needed in the sink bowl. This double-jointed spout offers additional versatility over a swing spout because you can rotate each section independently, and fold it to the side to make way for especially large or bulky items. It measures 18" long (12" back, 6" front) and comes with a 2 GPM aerator at the outlet, which helps to regulate the stream and reduce splashing. You can also use it to adjust an existing faucet.
