

## Waterloo Wall-Mounted Pot and Kettle Filler with Single Inlet and 24" Double-Jointed Swing Spout

#750PF24DJ

Item #: 750PF24DJ Qty: \_\_\_\_\_  
 Project: \_\_\_\_\_  
 Approval: \_\_\_\_\_ Date: \_\_\_\_\_

### Features

- 24" double-jointed spout with 2 GPM aerator
- Wall-mounted, single inlet with 1/2" NPT inlet
- Temperature rating 40 - 180 degrees Fahrenheit
- Heavy-duty chrome-plated brass construction

### Certifications

1/2" Water Connection

CSA, US and Canada

NSF Listed

### Technical Data

Spout Length	24 Inches
Faucet Height	8 3/4 Inches
Features	ASME A112.18.1-2018 / CSA B125.1-18 NSF Listed NSF/ANSI 372 NSF/ANSI 61
Flow Rate	2 GPM
Handle Type	4 Arm
Mounting Style	Wall Mounted
Spout Clearance	6 3/4 Inches

Technical Data	
Spout Type	Double Jointed
Temperature Rating	180 Degrees F
Thread Size	55/64"-27 UNS
Type	Pot / Kettle Fillers

## Plan View

## Notes & Details

Quickly and easily set up your steam tables and kettles with this Waterloo wall-mounted pot and kettle filler! Waterloo faucets provide the industry-leading quality you expect. With heavy chrome-plated brass faucet bodies, ceramic cartridges engineered for durability, and certifications from a wide range of national and local regulatory agencies, you can install this model with confidence. And to give you total peace of mind, it comes with a 3-year replacement warranty.

This faucet features a 24" double-jointed swing spout that gives greater range of motion than a standard swing nozzle, with the added benefit of allowing you to fold it out of the way to accommodate large, bulky items. A 2 GPM aerator provides a consistent flow rate and minimal splashing. The wall-mounted design is easy to install, and it comes with a single 1/2" NPT inlet.

This faucet uses a ceramic cartridge, which provides a much lower fail rate than the compression cartridges widely used in the industry. In this design, 2 ceramic discs fit together to create a watertight seal when closed. This removes the need for a rubber seat washer, which is one of the most frequently replaced parts on a faucet. A vertical handle makes it easy to turn the water flow on and off.
