Notes & Details

Equip your kitchen, prep area, or bar with this Waterloo 16" x 20" x 12" 18 gauge stainless steel one compartment undermount sink. This sink features an undermount design. That means it is secured to the bottom of the countertop for a clean, professional, seamless installation. It's perfect for use in a front of the house bar area, or as an addition to a prep area where you need an extra handwashing, utility, or dump sink.

Designed for durability, corrosion-resistance, and sanitation this sink bowl is made of deep drawn 18 gauge, type 304 stainless steel. It features 2" radius corners that prevent grimy build-up and allow clean rinsing. To help reduce ambient noise in your busy kitchen or bar, this sink comes with sound deadening patches that are ready to install. Plus, the 3 1/2" drain opening is ready for installation so you can get your new sink up and running.

To get your sink up and running as quickly as possible, this unit comes with the required installation hardware.
